TITLE: COMPOSITIONS AND
METHODS FOR REGULATION OF
STEROIDOGENESIS

EXAMINER: Riley, J.

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450AMENDMENT/REPLACEMENT OF SEQUENCE LISTING AND
COMPUTER READY COPY THEREOF UNDER 37 C.F.R. §1.825 (MPEP 2426)

Dear Examiner Riley:

Pursuant to your request a compact disc copy of the sequence listing for the above-referenced patent application is submitted herewith. You informed us of a discrepancy between the paper copy of the sequence listing in the case and the computer readable copy (specifically Sequence ID No. 2).

Pursuant to 37 C.F.R. §1.825 Applicant herewith submits an amendment to the computer readable copy of the sequence listing. Included herewith are the following:

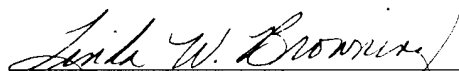

1. Two (2) copies of a replacement compact disc bearing the computer readable version of the sequence listing.
2. A paper copy print-out of the sequence listing reflecting the substance of the replacement compact disc; and
3. A paper copy of the sequence listing from the original application submission.

STATEMENT UNDER 37 C.F.R. §1.825(a)

Applicant herewith states that the preparation of the attached replacement compact disc containing the computer readable copy of the sequence listing was created directly from the original paper copy of the sequence listing submitted with the present application. The replacement compact disc includes no new matter and accurately reflects the substance of the sequence listing as originally filed. The attached computer readable copy of the sequence listing is the same as the paper copy attached hereto. Both items were prepared utilizing the PatentIn 3.2 software. The attached replacement compact disc contains all of the sequence listing files associated with the present application.

Should any questions regarding the attached submission remain, the Applicant respectfully requests that the Examining Attorney contact the undersigned attorney by phone.

Respectfully submitted,
COX & SMITH INCORPORATED
